ABOUT ZURA BIO

Zura Bio is a clinical-stage, multi-asset immunology company developing novel dual-pathway antibodies for a range of autoimmune and inflammatory diseases. The Company's pipeline includes dual-pathway product candidates designed to target key mechanisms of immune system imbalance, with the goal of improving efficacy, safety, and dosing convenience for patients.

Zura Bio's lead product candidate, tibulizumab (ZB-106), is currently being evaluated in two separate Phase 2 clinical studies in adults, including TibuSURE for systemic sclerosis and TibuSHIELD for hidradenitis suppurativa. Additional product candidates, crebankitug (ZB-168) and torudokimab (ZB-880), have completed Phase 1/1b studies and are being evaluated for their potential across a range of autoimmune and inflammatory conditions.
