Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (17 CFR §230.405) or Rule 12b-2 of the Securities Exchange Act of 1934 (17 CFR §240.12b-2).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

**Item 8.01 Other Events.**

As previously disclosed on a Current Report on Form 8-K dated July 19, 2021, on July 16, 2021 JATT Acquisition Corp (the “Company”) consummated its initial public offering (the “IPO”) of 12,000,000 units (the “Units”). Each Unit consists of one Class A ordinary share par value \$0.0001 per share (“Ordinary Share”) and one-half of one redeemable warrant (“Warrant”). Each whole Warrant entitles the holder thereof to purchase one Ordinary Share for \$11.50 per share. The Units were sold at a price of \$10.00 per Unit, generating gross proceeds to the Company of \$120,000,000.

Simultaneously with the closing of the IPO, the Company consummated a private placement (the “Private Placement”) in which JATT Ventures, L.P., a Cayman Islands limited partnership (the “Sponsor”), purchased 5,370,000 private warrants (the “Private Placement Warrants”) at a price of \$1.00 per Private Placement Warrant, generating total proceeds of \$5,370,000. Each Private Placement Warrant entitles the holder thereof to purchase one Ordinary Share for \$11.50 per share and is subject to transfer restrictions.

As of July 16, 2021, a total of \$121,740,000 (\$10.10 per Unit) of the net proceeds from the IPO and a portion of the proceeds from the Private Placement was deposited in a trust account established for the benefit of the Company’s public shareholders (the “Trust Account”).

On July 19, 2021, in connection with the underwriters' exercise of their over-allotment option (“Over-allotment Option”) in full, the Company consummated the sale of an additional 1,800,000 Units, and the sale of an additional 540,000 Private Placement Warrants, as described below, each at \$1.00 per warrant, generating total gross proceeds of \$18,540,000. Following the closing, an additional \$18,180,000 of the net proceeds (\$10.10 per Unit) was placed in the Trust Account, resulting in a total of \$139,380,000 (\$10.10 per Unit) held in the Trust Account. Upon the closing of the Over-allotment Option, the Sponsor purchased an additional 540,000 Private Placement Warrants for an aggregate purchase price of \$540,000.

An audited balance sheet as of July 16, 2021 reflecting receipt of the proceeds upon consummation of the IPO and the sale of the Private Placement Warrants has been issued by the Company and is filed as Exhibit 99.1 to this Current Report on Form 8-K.

On July 19, 2021, JATT Acquisition Corp issued the press release attached hereto as Exhibit 99.2 to this Current Report on Form 8-K, announcing the exercise in full of the Over-allotment Option by the underwriters and the closing of the IPO.

**Item 3.02. Unregistered Sales of Equity Securities.**

In connection with the closing of the IPO and the Over-allotment Option, the Sponsor purchased an aggregate of 5,910,000 Private Placement Warrants from the Company for an aggregate purchase price of \$5,910,000. The Private Placement Warrants were issued pursuant to Section 4(a)(2) of the Securities Act of 1933, as amended, as the transactions did not involve a public offering.

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors of  
**JATT Acquisition Corp**

### **Opinion on the Financial Statement**

We have audited the accompanying balance sheet of JATT Acquisition Corp (the "Company") as of July 16, 2021, and the related notes (collectively referred to as the "financial statement"). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company as of July 16, 2021, in conformity with accounting principles generally accepted in the United States of America.

### **Basis for Opinion**

This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

/s/ Marcum LLP

Marcum LLP

We have served as the Company's auditor since 2021.

**July 16, 2021**

<b>Assets</b>	
Current assets:	
Cash	\$ 2,001,851
Prepaid expenses	26,800
<b>Total current assets</b>	<u>2,028,651</u>
Cash held in Trust Account	121,740,000
<b>Total Assets</b>	<u><u>\$ 123,768,651</u></u>
<b>Liabilities and Shareholders' Equity</b>	
Current liabilities:	
Accounts payable	\$ 107,208
Accrued expenses	110,181
Due to related party	657,381
<b>Total current liabilities</b>	<u>874,770</u>
Deferred underwriting commissions	3,380,000
Derivative liabilities	14,481,000
<b>Total Liabilities</b>	<u>18,735,770</u>
<b>Commitments and Contingencies</b>	
Class A ordinary shares, \$0.0001 par value; 9,904,245 shares subject to possible redemption at \$10.10 per share	100,032,875
<b>Shareholders' Equity:</b>	
Preference shares, \$0.0001 par value; 1,000,000 shares authorized; none issued and outstanding	-
Class A ordinary shares, \$0.0001 par value; 200,000,000 shares authorized; 2,095,755 shares issued and outstanding (excluding 9,904,245 shares subject to possible redemption)	210
Class B ordinary shares, \$0.0001 par value; 20,000,000 shares authorized; 3,450,000 shares issued and outstanding <sup>(1)</sup>	345
Additional paid-in capital	7,073,901
Accumulated deficit	<u>(2,074,450)</u>
<b>Total shareholders' equity</b>	<u>5,000,006</u>
<b>Total Liabilities and Shareholders' Equity</b>	<u><u>\$ 123,768,651</u></u>

(1) This number includes up to 450,000 Class B ordinary shares subject to forfeiture if the over-allotment option is not exercised in full or in part by the underwriters. The underwriters fully exercised their over-allotment option on July 19, 2021; therefore, these 450,000 Founder Shares are no longer subject to possible redemption.

*The accompanying notes are an integral part of the financial statement.*

**JATT ACQUISITION CORP**  
**BALANCE SHEET**

**NOTE 1. DESCRIPTION OF ORGANIZATION, BUSINESS OPERATIONS AND LIQUIDITY**

JATT Acquisition Corp (the “Company”) is a blank check company incorporated as a Cayman Islands exempted company on March 10, 2021. The Company was incorporated for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses that the Company has not yet identified (“Business Combination”).

As of July 16, 2021, the Company had not yet commenced operations. All activity for the period from March 10, 2021 (inception) through July 16, 2021 relates to the Company’s formation and the initial public offering (the “Initial Public Offering”), which is described below. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income from the proceeds derived from the Initial Public Offering. The Company has selected December 31 as its fiscal year end.

The Company’s sponsor is JATT Ventures, L.P., a Cayman Islands exempted limited partnership (the “Sponsor”). The registration statement for the Company’s Initial Public Offering was declared effective on July 13, 2021. On July 16, 2021, the Company consummated its Initial Public Offering of 12,000,000 units (the “Units” and, with respect to the Class A ordinary shares included in the Units being offered, the “Public Shares”), at \$10.00 per Unit, generating gross proceeds of \$120.0 million, and incurring offering costs of approximately \$5.8 million (net of reimbursement from underwriter of \$480,000), of which approximately \$3.4 million and approximately \$331,000 was for deferred underwriting commissions (see Note 6) and offering costs allocated to derivative warrant liabilities, respectively. On July 19, 2021, the underwriters fully exercised their option and purchased 1,800,000 additional Units, generating gross proceeds of \$18.0 million (the “Over-Allotment”), and incurring offering costs of \$990,000, of which \$630,000 was for deferred underwriting commissions.

Simultaneously with the closing of the Initial Public Offering, the Company consummated the private placement (“Private Placement”) of 5,370,000 warrants (each, a “Private Placement Warrant” and collectively, the “Private Placement Warrants”), at a price of \$1.00 per Private Placement Warrant to the Sponsor, generating proceeds of approximately \$5.4 million (see Note 4). Concurrent with the consummation of the Over-Allotment on July 19, 2021, the Sponsor purchased 540,000 additional Private Placement Warrants, generating proceeds of \$540,000 (the “Second Private Placement”).

Upon the closing of the Initial Public Offering and the Private Placement on July 16, 2021, \$121.2 million (\$10.10 per Unit) of the net proceeds of the Initial Public Offering and the Private Placement was placed in a trust account (“Trust Account”) with Continental Stock Transfer & Trust Company acting as trustee and invested in United States “government securities” within the meaning of Section 2(a)(16) of the Investment Company Act having a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under Investment Company Act of 1940, as amended, (the “Investment Company Act”), which invest only in direct U.S. government treasury obligations, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the Trust Account as described below. In addition, on July 16, 2021, the Sponsor made a payment of \$540,000 to the Trust Account representing its payment for the additional 540,000 Private Placement Warrants which was consummated on July 19, 2021. Upon the closing of the Over-Allotment on July 19, 2021, a total of approximately \$139.4 million (\$10.10 per Unit) of the net proceeds of the Initial Public Offering, the Over-Allotment and the Second Private Placement were placed in the Trust Account.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of its Initial Public Offering and the sale of Private Placement Warrants, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. The Company’s initial Business Combination must be with one or more operating businesses or assets with a fair market value equal to at least 80% of the net assets held in the Trust Account (excluding any deferred underwriters fees and taxes payable on the income earned on the Trust Account) at the time the Company signs a definitive agreement in connection with the initial Business Combination. However, the Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act.

The Company will provide its holders of the Public Shares (the “Public Shareholders”) with the opportunity to redeem all or a portion of their Public Shares upon the completion of a Business Combination either (i) in connection with a general meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek shareholder approval of a Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The Public Shareholders will be entitled to redeem their Public Shares for a pro rata portion of the amount then in the Trust Account (initially at \$10.10 per share, plus any pro rata interest earned on the funds held in the Trust Account and not previously released to the Company to pay its tax obligations). The per-share amount to be distributed to Public Shareholders who redeem their Public Shares will not be reduced by the deferred underwriting commissions the Company will pay to the underwriters (as discussed in Note 6). These Public Shares were recorded at a redemption value and classified as temporary equity in accordance with Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 480 “Distinguishing Liabilities from Equity.” In such case, the Company will proceed with a Business Combination if the Company has net tangible assets of at least \$5,000,001 upon such consummation of a Business Combination and a majority of the shares voted are voted in favor of the Business Combination. If a shareholder vote is not required by law and the Company does not decide to hold a shareholder vote for business or other legal reasons, the Company will, pursuant to the amended and restated memorandum and articles of association which were adopted by the Company upon the consummation of the Initial Public Offering (the “amended and restated memorandum and articles of association”), conduct the redemptions pursuant to the tender offer rules of the U.S. Securities and Exchange Commission (the “SEC”), and file tender offer documents with the SEC prior to completing a Business Combination. If, however, a shareholder approval of the transactions is required by law, or the Company decides to obtain shareholder approval for business or legal reasons, the Company will offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. Additionally, each Public Shareholder may elect to redeem their Public Shares irrespective of whether they vote for or against the proposed transaction. If the Company seeks shareholder approval in connection with a Business Combination, the holders of the Founder Shares prior to this Initial Public Offering (the “Initial Shareholders”) have agreed to vote their Founder Shares (as defined in Note 5) and any Public Shares purchased during or after the Initial Public Offering in favor of a Business Combination. In addition, the Initial Shareholders agreed to waive their redemption rights with respect to their Founder Shares and Public Shares in connection with the completion of a Business Combination. In addition, the Company agreed not to enter into a definitive agreement regarding an initial Business Combination without the prior consent of the Sponsor.

Notwithstanding the foregoing, the Company’s amended and restated memorandum and articles of association provide that a Public Shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a “group” (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”)), will be restricted from redeeming its shares with respect to more than an aggregate of 15% or more of the Class A ordinary shares sold in the Initial Public Offering, without the prior consent of the Company.

The Company’s Sponsor, officers and directors have agreed not to propose an amendment to the Company’s amended and restated memorandum and articles of association that would affect the substance or timing of the Company’s obligation to provide for the redemption of its Public Shares in connection with a Business Combination or to redeem 100% of its Public Shares if the Company does not complete a Business Combination, unless the Company provides the Public Shareholders with the opportunity to redeem their Class A ordinary shares in conjunction with any such amendment.

If the Company is unable to complete a Business Combination within 18 months from the closing of the Initial Public Offering, or January 16, 2023 (the “Combination Period”), the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account (less taxes payable and up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish Public Shareholders’ rights as shareholders (including the right to receive further liquidating distributions, if any) and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the remaining shareholders and the board of directors, liquidate and dissolve, subject, in the case of clauses (ii) and (iii), to the Company’s obligations under Cayman Islands law to provide for claims of creditors and in all cases subject to the other requirements of applicable law.

In connection with the redemption of 100% of the Company's outstanding Public Shares for a portion of the funds held in the Trust Account, each holder will receive a full pro rata portion of the amount then in the Trust Account, plus any pro rata interest earned on the funds held in the Trust Account and not previously released to the Company to pay the Company's taxes payable (less up to \$100,000 of interest to pay dissolution expenses).

The Initial Shareholders agreed to waive their liquidation rights with respect to the Founder Shares if the Company fails to complete a Business Combination within the Combination Period. However, if the Initial Shareholders should acquire Public Shares in or after the Initial Public Offering, they will be entitled to liquidating distributions from the Trust Account with respect to such Public Shares if the Company fails to complete a Business Combination within the Combination Period. The underwriters agreed to waive their rights to their deferred underwriting commission (see Note 6) held in the Trust Account in the event the Company does not complete a Business Combination within in the Combination Period and, in such event, such amounts will be included with the funds held in the Trust Account that will be available to fund the redemption of the Company's Public Shares. In the event of such distribution, it is possible that the per share value of the residual assets remaining available for distribution (including Trust Account assets) will be only \$10.10 per share initially held in the Trust Account. In order to protect the amounts held in the Trust Account, the Sponsor agreed that it will be liable to the Company if and to the extent any claims by a third party for services rendered or products sold to the Company, or a prospective target business with which the Company has entered into a written letter of intent, confidentiality or other similar agreement or business combination agreement, reduce the amount of funds in the Trust Account to below the lesser of (i) \$10.10 per Public Share and (ii) the actual amount per Public Share held in the trust account as of the date of the liquidation of the Trust Account, if less than \$10.10 per share due to reductions in the value of the trust assets, less taxes payable; provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the Trust Account (whether or not such waiver is enforceable) nor will it apply to any claims under the Company's indemnity of the underwriters of the Initial Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). In the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsor will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have vendors, service providers (except the Company's independent registered public accounting firm), prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

### ***Liquidity and capital resources***

As of July 16, 2021, the Company had approximately \$2.0 million in its operating bank account and working capital of approximately \$1.2 million.

The Company's liquidity needs prior to the consummation of the Initial Public Offering were satisfied through the cash contribution of \$25,000 from the Sponsor to purchase Founder Shares (as defined in Note 5), and the loan from the Sponsor of approximately \$117,000 under the Note (as defined in Note 5). The Company repaid the Note in full on July 21, 2021. Subsequent to the consummation of the Initial Public Offering, the Company's liquidity has been satisfied through the net proceeds from the consummation of the Initial Public Offering and the Private Placement held outside of the Trust Account. In addition, in order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors may, but are not obligated to, provide the Company Working Capital Loans (as defined in Note 5). As of July 16, 2021, there were no amounts outstanding under any Working Capital Loan.

Based on the foregoing, management believes that the Company will have sufficient working capital and borrowing capacity to meet its needs through the earlier of the consummation of a Business Combination or one year from this filing. Over this time period, the Company will be using the funds held outside of the Trust Account for paying existing accounts payable, identifying and evaluating prospective initial Business Combination candidates, performing due diligence on prospective target businesses, paying for travel expenditures, selecting the target business to merge with or acquire, and structuring, negotiating and consummating the Business Combination.

### ***Risks and uncertainties***

Management continues to evaluate the impact of the COVID-19 pandemic on the industry and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations and/or search for a target company, the specific impact is not readily determinable as of the date of the financial statement. The financial statement does not include any adjustments that might result from the outcome of this uncertainty.

## **NOTE 2. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### ***Basis of presentation***

The accompanying financial statement is presented in U.S. dollars in conformity with accounting principles generally accepted in the United States of America ("GAAP") and pursuant to the rules and regulations of the SEC.

### ***Emerging growth company***

The Company is an "emerging growth company," as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act"), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that an emerging growth company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company's financial statement with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

### ***Concentration of credit risk***

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash accounts in a financial institution, which, at times, may exceed the federal deposit insurance corporation coverage of \$250,000. The Company has not experienced losses on these accounts and management believes the Company is not exposed to significant risks on such accounts.

### ***Cash and cash equivalents***

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. As of July 16, 2021, the Company had no cash equivalents.

### ***Cash held in Trust Account***

As of July 16, 2021, the Company had approximately \$121.7 million in cash held in the Trust Account.

### ***Use of estimates***

The preparation of the balance sheet in conformity with GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the balance sheet. Significant estimates include those related to assumptions used in valuing derivative warrant liabilities.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the balance sheet, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from those estimates.

### ***Fair value of financial instruments***

The fair value of the Company's assets and liabilities, which qualify as financial instruments under the FASB ASC Topic 820, "Fair Value Measurements," approximates the carrying amounts represented in the balance sheet, primarily due to their short-term nature.

### ***Fair value measurements***

Fair value is defined as the price that would be received for sale of an asset or paid for transfer of a liability, in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices (unadjusted) for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

In some circumstances, the inputs used to measure fair value might be categorized within different levels of the fair value hierarchy. In those instances, the fair value measurement is categorized in its entirety in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

### ***Derivative financial instruments***

The Company does not use derivative instruments to hedge exposures to cash flow, market, or foreign currency risks. The Company evaluates all of its financial instruments, including issued stock purchase warrants, to determine if such instruments are derivatives or contain features that qualify as embedded derivatives, pursuant to ASC 480 and ASC 815, "Derivatives and Hedging" ("ASC 815"). The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, will be re-assessed at the end of each reporting period. Derivative warrant liabilities will be classified as non-current liabilities as their liquidation is not reasonably expected to require the use of current assets or require the creation of current liabilities.

The 11,370,000 warrants issued in connection with the Initial Public Offering and the Private Placement (including the 6,000,000 warrants included in the Units and the 5,370,000 Private Placement Warrants) are recognized as derivative liabilities in accordance with ASC 815. Accordingly, the Company recognizes the warrant instruments as liabilities at fair value and adjust the instruments to fair value at each reporting period. The liabilities are subject to re-measurement at each balance sheet date until exercised. The fair value of the Public Warrants and the Private Placement Warrants are estimated using Black-Scholes option pricing model and Monte Carlo simulation.

### ***Offering costs associated with the Initial Public Offering***

Offering costs consisted of legal, accounting, underwriting fees and other costs incurred through the Initial Public Offering that were directly related to the Initial Public Offering. Offering costs were allocated to the separable financial instruments issued in the Initial Public Offering based on a relative fair value basis, compared to total proceeds received. Offering costs allocated to derivative warrant liabilities were expensed as incurred. Offering costs allocated to the Class A ordinary shares were charged to shareholders' equity upon the completion of the Initial Public Offering.

### ***Class A ordinary shares subject to possible redemption***

As discussed in Note 3, all of the 12,000,000 Class A ordinary shares sold as part of the Units in the Public Offering contain a redemption feature which allows for the redemption of such Public Shares in connection with the Company's liquidation, if there is a shareholder vote or tender offer in connection with the Business Combination and in connection with certain amendments to the Company's amended and restated certificate of incorporation. In accordance with ASC 480, conditionally redeemable Class A ordinary shares (including Class A ordinary shares that feature redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company's control) are classified as temporary equity. Ordinary liquidation events, which involve the redemption and liquidation of all of the entity's equity instruments, are excluded from the provisions of ASC 480. Although the Company did not specify a maximum redemption threshold, its charter provides that currently, the Company will not redeem its Public Shares in an amount that would cause its net tangible assets (shareholders' equity) to be less than \$5,000,001. Accordingly, as of July 16, 2021, 9,904,245 Class A ordinary shares subject to possible redemption at the redemption amount were presented as temporary equity, outside of the shareholders' equity section of the Company's balance sheet.

### ***Income taxes***

The Company complies with the accounting and reporting requirements of FASB ASC Topic 740, "Income Taxes," which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in future taxable or deductible amounts, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

FASB ASC Topic 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. The Company's management determined that the Cayman Islands is the Company's only major tax jurisdiction. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of July 16, 2021. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position.

There is currently no taxation imposed on income by the Government of the Cayman Islands. In accordance with Cayman federal income tax regulations, income taxes are not levied on the Company. Consequently, income taxes are not reflected in the Company's financial statement. The Company's management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

### ***Recent accounting standards***

In August 2020, the FASB issued Accounting Standards Update (“ASU”) No. 2020-06, Debt—Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging—Contracts in Entity’s Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity’s Own Equity (“ASU 2020-06”), which simplifies accounting for convertible instruments by removing major separation models required under current GAAP. The ASU also removes certain settlement conditions that are required for equity-linked contracts to qualify for the derivative scope exception, and it simplifies the diluted earnings per share calculation in certain areas. The Company adopted ASU 2020-06 on March 10, 2021 (inception). Adoption of the ASU did not impact the Company’s financial position, results of operations or cash flows.

Management does not believe that any other recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the Company’s financial statement.

### **NOTE 3. INITIAL PUBLIC OFFERING**

On July 16, 2021, the Company consummated its Initial Public Offering of 12,000,000 Units, at \$10.00 per Unit, generating gross proceeds of \$120.0 million, and incurring offering costs of approximately \$5.8 million (net of reimbursement from the underwriters of \$480,000), of which approximately \$3.4 million and approximately \$331,000 was for deferred underwriting commissions and offering costs allocated to derivate warrant liabilities, respectively. On July 19, 2021, the underwriters fully exercised their option and purchased 1,800,000 additional Units, generating gross proceeds of \$18.0 million, and incurring offering costs of \$990,000, of which \$630,000 was for deferred underwriting commissions.

Each Unit consists of one Class A ordinary share and one-half of one redeemable warrant (“Public Warrant”). Each whole Public Warrant entitles the holder to purchase one Class A ordinary share at an exercise price of \$11.50 per share, subject to adjustment (see Note 7).

### **NOTE 4. PRIVATE PLACEMENT**

Simultaneously with the closing of the Initial Public Offering, the Company consummated the Private Placement of 5,370,000 Private Placement Warrants, at a price of \$1.00 per Private Placement Warrant to the Sponsor, generating proceeds of approximately \$5.4 million. Concurrent with the consummation of the Over-Allotment on July 19, 2021, the Sponsor purchased 540,000 additional Private Placement Warrants, generating proceeds of \$540,000. (see Note 5).

Each whole Private Placement Warrant is exercisable for one whole share of Class A ordinary shares at a price of \$11.50 per share. A portion of the proceeds from the sale of the Private Placement Warrants was added to the proceeds from the Initial Public Offering held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the Private Placement Warrants will expire worthless. The Private Placement Warrants will be non-redeemable for cash and exercisable on a cashless basis so long as they are held by the Sponsor or their permitted transferees.

The Sponsor and the Company’s officers and directors agreed, subject to limited exceptions, not to transfer, assign or sell any of their Private Placement Warrants until 30 days after the completion of the initial Business Combination.

### **NOTE 5. RELATED PARTY TRANSACTIONS**

#### ***Founder Shares***

On March 22, 2021, the Sponsor purchased 4,312,500 founder shares (“Founder Shares”), which are Class B ordinary shares, for an aggregate purchase price of \$25,000, or approximately \$0.006 per share. On June 14, 2021, Sponsor effected a surrender of 862,500 Class B ordinary shares to us for no consideration, resulting in a decrease in the total number of Class B ordinary shares outstanding from 4,312,500 to 3,450,000. The holders of the Founder Shares agreed to surrender and cancel up to an aggregate of 450,000 Founder Shares, on a pro rata basis, to the extent that the option to purchase additional Units was not exercised in full by the underwriters, so that the Founder Shares would represent approximately 20% of the Company’s issued and outstanding shares after the Initial Public Offering. The underwriters fully exercised their over-allotment option on July 19, 2021; therefore, these 450,000 Founder Shares were no longer subject to possible redemption.

The Initial Shareholders agreed not to transfer, assign or sell any of their Founder Shares until the earlier to occur of: (A) one year after the completion of the initial Business Combination and (B) subsequent to the initial Business Combination, (x) if the closing price of Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted for share subdivisions, share capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the initial Business Combination, or (y) the date on which the Company completes a liquidation, merger, share exchange or other similar transaction that results in all of the Public Shareholders having the right to exchange their ordinary shares for cash, securities or other property.

### ***Related Party Loans***

On March 22, 2021, the Sponsor agreed to loan the Company up to \$200,000 pursuant to a promissory note (the “Note”). The Note was non-interest bearing, unsecured and due on the closing date of the Initial Public Offering. The Company borrowed approximately \$117,000 under the Note. The Company repaid the Note in full on July 21, 2021.

In addition, in order to finance transaction costs in connection with a Business Combination, the Sponsor, members of the Company’s founding team or any of their affiliates may, but are not obligated to, loan the Company funds as may be required (“Working Capital Loans”). If the Company completes a Business Combination, the Company would repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the Trust Account. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. The Working Capital Loans would either be repaid upon consummation of a Business Combination, without interest, or, at the lender’s discretion, up to \$1.5 million of such Working Capital Loans may be convertible into warrants of the post Business Combination entity at a price of \$1.00 per warrant. The warrants would be identical to the Private Placement Warrants. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. As of July 16, 2021, the Company had no borrowings under the Working Capital Loans.

### ***Administrative Support Agreement***

Commencing on the effective date of the prospectus relating to the Initial Public Offering, the Company agreed to pay the Sponsor a total of \$10,000 per month for office space, utilities and secretarial and administrative support. Upon completion of the initial business combination or liquidation, the Company will cease paying these monthly fees.

## **NOTE 6. COMMITMENTS AND CONTINGENCIES**

### ***Registration and Shareholder Rights***

The holders of the Founder Shares, Private Placement Warrants, and warrants that may be issued upon conversion of Working Capital Loans (and any Class A ordinary shares issuable upon the exercise of the Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans) are entitled to registration rights pursuant to a registration and shareholder rights agreement signed upon the effective date of the Initial Public Offering. The holders of these securities are entitled to make up to three demands, excluding short form demands, that the Company registers such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to the completion of the initial Business Combination. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

### ***Underwriting Agreement***

The Company granted the underwriter a 45-day option from the date of the Initial Public Offering to purchase up to 1,800,000 additional Units at the Initial Public Offering price less the underwriting discounts and commissions. The underwriter fully exercised its over-allotment option on July 19, 2021.

The underwriter was paid an underwriting discount of \$0.20 per unit, or approximately \$2.4 million in the aggregate upon the closing of the Initial Public Offering. In addition, the Company received a reimbursement from the underwriter of \$480,000 to cover for certain offering expenses.

In addition, \$0.35 per unit, or approximately \$3.4 million in the aggregate (net of the reimbursement from the underwriter of \$820,000 from the deferred commissions for business combination expenses) will be payable to the underwriter for deferred underwriting commissions. The deferred fee will become payable to the underwriter from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

In connection with the consummation of the Over-Allotment on July 19, 2021, the underwriter was paid an additional fee of \$360,000 upon closing of the Over-Allotment and approximately \$0.9 million in deferred underwriting commissions.

#### **NOTE 7. SHAREHOLDERS' EQUITY**

**Preference Shares** — The Company is authorized to issue 1,000,000 preference shares with a par value of \$0.0001 per share. As of July 16, 2021, there were no preference shares issued or outstanding.

**Class A Ordinary Shares** — The Company is authorized to issue 200,000,000 Class A ordinary shares with a par value of \$0.0001 per share. Holders of the Company's Class A ordinary shares are entitled to one vote for each share. As of July 16, 2021, there were 2,095,755 Class A ordinary shares outstanding, excluding 9,904,245 Class A ordinary shares subject to possible redemption that were classified as temporary equity in the accompanying balance sheet.

**Class B Ordinary Shares** — The Company is authorized to issue 20,000,000 Class B ordinary shares with a par value of \$0.0001 per share. On March 23, 2021, the Company issued 4,312,500 Class B ordinary shares to the Sponsor. On June 14, 2021, the Sponsor effected a surrender of 862,500 Class B ordinary shares to the Company for no consideration, resulting in a decrease in the total number of Class B ordinary shares outstanding from 4,312,500 to 3,450,000. The holders of the Founder Shares agreed to surrender and cancel up to an aggregate of 450,000 Class B ordinary shares for no consideration to the extent that the underwriters' over-allotment option was not exercised in full or in part, so that the Initial Shareholders would collectively own 20% of the Company's issued and outstanding ordinary shares after the Initial Public Offering. The underwriters fully exercised their over-allotment option on July 19, 2021; therefore, these 450,000 Founder Shares were no longer subject to possible redemption.

Ordinary shareholders of record are entitled to one vote for each share held on all matters to be voted on by shareholders. Holders of Class A ordinary shares and holders of Class B ordinary shares will vote together as a single class on all matters submitted to a vote of the shareholders except as required by law.

The Class B ordinary shares will automatically convert into Class A ordinary shares concurrently with or immediately following the consummation of the initial Business Combination on a one-for-one basis, subject to adjustment for share sub-divisions, share capitalizations, reorganizations, recapitalizations and the like, and subject to further adjustment as provided herein. In the case that additional Class A ordinary shares or equity-linked securities are issued or deemed issued in connection with the initial Business Combination, the number of Class A ordinary shares issuable upon conversion of all Founder Shares will equal, in the aggregate, 20% of the total number of ordinary shares outstanding after such conversion, including the total number of Class A ordinary shares issued, or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the Company in connection with or in relation to the consummation of the initial Business Combination, excluding any Class A ordinary shares or equity-linked securities exercisable for or convertible into Class A ordinary shares issued, or to be issued, to any seller in the initial Business Combination, any private placement warrants issued to the Sponsor, officers or directors upon conversion of Working Capital Loans; provided that such conversion of Founder Shares will never occur on a less than one-for-one basis.

#### **NOTE 8. DERIVATIVE WARRANT LIABILITIES**

As of July 16, 2021, the Company has 6,000,000 and 5,370,000 Public Warrants and Private Placement Warrants, respectively, outstanding.

Public Warrants may only be exercised for a whole number of shares. No fractional Public Warrants will be issued upon separation of the Units and only whole Public Warrants will trade. The Public Warrants will become exercisable on the later of (a) 30 days after the completion of a Business Combination and (b) 12 months from the closing of the Initial Public Offering; provided in each case that the Company has an effective registration statement under the Securities Act covering the Class A ordinary shares issuable upon exercise of the Public Warrants and a current prospectus relating to them is available and such shares are registered, qualified or exempt from registration under the securities laws of the state of residence of the holder (or the Company permit holders to exercise their warrants on a cashless basis under certain circumstances). The Company agreed that as soon as practicable, but in no event later than 45 business days after the closing of the initial Business Combination, the Company will use commercially reasonable efforts to file with the SEC and have an effective registration statement covering the Class A ordinary shares issuable upon exercise of the warrants and to maintain a current prospectus relating to those Class A ordinary shares until the warrants expire or are redeemed, as specified in the warrant agreement. If a registration statement covering the Class A ordinary shares issuable upon exercise of the warrants is not effective by the 60<sup>th</sup> day after the closing of the initial Business Combination, warrant holders may, until such time as there is an effective registration statement and during any period when the Company will have failed to maintain an effective registration statement, exercise warrants on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act or another exemption. Notwithstanding the above, if the Class A ordinary shares are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a “covered security” under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of Public Warrants who exercise their warrants to do so on a “cashless basis” and, in the event the Company so elects, the Company will not be required to file or maintain in effect a registration statement, and in the event the Company does not so elect, it will use commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

The warrants have an exercise price of \$11.50 per share, subject to adjustments, and will expire five years after the completion of a Business Combination or earlier upon redemption or liquidation. In addition, if (x) the Company issues additional Class A ordinary shares or equity-linked securities for capital raising purposes in connection with the closing of the initial Business Combination at an issue price or effective issue price of less than \$9.20 per Class A ordinary share (with such issue price or effective issue price to be determined in good faith by the board of directors and, in the case of any such issuance to the initial shareholders or their affiliates, without taking into account any Founder Shares held by the initial shareholders or such affiliates, as applicable, prior to such issuance) (the “Newly Issued Price”), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of the initial Business Combination on the date of the consummation of the initial Business Combination (net of redemptions), and (z) the volume weighted average trading price of the Class A ordinary shares during the 10 trading day period starting on the trading day prior to the day on which the Company consummates its initial Business Combination (such price, the “Market Value”) is below \$9.20 per share, then the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger prices described under “Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00” and “Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00” will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 per share redemption trigger price described under “Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00” will be adjusted (to the nearest cent) to be equal to the higher of the Market Value and the Newly Issued Price.

The Private Placement Warrants are identical to the Public Warrants underlying the Units sold in the Initial Public Offering, except that the Private Placement Warrants and the Class A ordinary shares issuable upon exercise of the Private Placement Warrants will not be transferable, assignable or salable until 30 days after the completion of a Business Combination, subject to certain limited exceptions. Additionally, the Private Placement Warrants will be non-redeemable so long as they are held by the initial purchasers or such purchasers’ permitted transferees. If the Private Placement Warrants are held by someone other than the Initial Shareholders or their permitted transferees, the Private Placement Warrants will be redeemable by the Company and exercisable by such holders on the same basis as the Public Warrants.

**Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00:** Once the warrants become exercisable, the Company may redeem the outstanding warrants (except as described herein with respect to the Private Placement Warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days' prior written notice of redemption to each warrant holder; and
- if, and only if, the last reported sale price (the "closing price") of Class A ordinary shares equals or exceeds \$18.00 per share (as adjusted) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which the Company sends the notice of redemption to the warrant holders.

The Company will not redeem the warrants as described above unless a registration statement under the Securities Act covering the Class A ordinary shares issuable upon exercise of the warrants is then effective and a current prospectus relating to those Class A ordinary shares is available throughout the 30-day redemption period.

In no event will the Company be required to net cash settle any warrant. If the Company is unable to complete a Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of warrants will not receive any of such funds with respect to their warrants, nor will they receive any distribution from the Company's assets held outside of the Trust Account with the respect to such warrants. Accordingly, the warrants may expire worthless.

#### NOTE 9. FAIR VALUE MEASUREMENTS

The following table presents information about the Company's financial liabilities that are measured at fair value on a recurring basis as of the initial issuance date, July 16, 2021, by level within the fair value hierarchy:

Description	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)
<b>Liabilities:</b>			
Derivative warrant liabilities	\$ -	\$ -	\$ 14,481,000

Transfers to/from Levels 1, 2 and 3 are recognized at the beginning of the reporting period.

The Public Warrants issued in connection with the Public Offering and the Private Placement Warrants were initially measured at fair value using a Black-Scholes option pricing model and a Monte Carlo simulation.

Inherent in a Black-Scholes option pricing model and a Monte Carlo simulation are assumptions related to expected stock-price volatility, expected life, risk-free interest rate and dividend yield. The Company estimates the volatility of its warrants based on implied volatility from the Company's traded warrants and from historical volatility of select peer company's ordinary shares that matches the expected remaining life of the warrants. The risk-free interest rate is based on the U.S. Treasury zero-coupon yield curve on the grant date for a maturity similar to the expected remaining life of the warrants. The expected life of the warrants is assumed to be equivalent to their remaining contractual term. The dividend rate is based on the historical rate, which the Company anticipates remaining at zero.

The following table provides quantitative information regarding Level 3 fair value measurements inputs as their measurement dates:

	<b>At initial issuance</b>
Exercise price	\$ 11.50
Stock price	\$ 9.34
Volatility	23.0%
Term (years)	5
Risk-free rate	0.07% - 1.10%
Dividend yield	0.0%

#### **NOTE 10. SUBSEQUENT EVENTS**

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the financial statement was issued. Based upon this review, the Company did not identify any subsequent events, except as noted below, that would have required adjustment or disclosure in the financial statement.

On July 19, 2021, the underwriters fully exercised their option and purchased 1,800,000 additional Units, generating gross proceeds of \$18.0 million, and incurring offering costs of \$990,000, of which \$630,000 was for deferred underwriting commissions. Concurrent with the consummation of the Over-Allotment on July 19, 2021, the Sponsor purchased 540,000 additional Private Placement Warrants, generating proceeds of \$540,000.

The Company repaid the Note balance of approximately \$117,000 in full on July 21, 2021.

**JATT Acquisition Corp Announces Full Exercise of Over-Allotment Option and Closing of \$138 Million Initial Public Offering**

**New York, New York – July 19, 2021** – JATT Acquisition Corp (the “Company”), today announced that it has closed its initial public offering of 13,800,000 units, including 1,800,000 units sold pursuant to the full exercise of the underwriters’ over-allotment option, at an offering price of \$10.00 per unit. Total gross proceeds from the offering were \$138,000,000, before deducting underwriting discounts and commissions and other offering expenses. The units began trading on the New York Stock Exchange (“NYSE”) under the ticker symbol “JATT U” on July 14, 2021. Each unit consists of one Class A ordinary share and one-half of one redeemable warrant. Each whole warrant will entitle the holder thereof to purchase one Class A ordinary share at \$11.50 per share. Once the securities comprising the units begin separate trading, the Class A ordinary shares and the warrants are expected to be traded on the NYSE under the symbols “JATT” and “JATT WS,” respectively. No fractional warrants will be issued upon separation of the units and only whole warrants will trade.

JATT Acquisition Corp is led by Chairman and CEO Someit Sidhu. The Company is a blank check company, also commonly referred to as a special purpose acquisition company, or SPAC, formed for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses or entities. While the Company may pursue its initial business combination with any business or industry, it intends to focus its search primarily in the life sciences sector.

Raymond James & Associates, Inc. acted as sole book-running manager for the offering. A registration statement relating to the securities sold in the initial public offering was declared effective by the U.S. Securities and Exchange Commission (the “SEC”) on July 13, 2021. The offering was made only by means of a prospectus. Copies of the prospectus related to this offering may be obtained from Raymond James & Associates, Inc., 880 Carillon Parkway, St. Petersburg, Florida 33716, Attention: Equity Syndicate, 1-800-248-8863, prospectus@raymondjames.com, or by visiting EDGAR on the SEC’s website at [www.sec.gov](http://www.sec.gov).

Of the proceeds received from the consummation of the offering and a simultaneous private placement of warrants, \$139,380,000 (or \$10.10 per unit sold in the offering) was placed in the Company’s trust account. An audited balance sheet of the Company reflecting receipt of the proceeds upon consummation of the offering and the private placement will be included as an exhibit to a Current Report on Form 8-K to be filed by the Company with the SEC.

*This press release shall not constitute an offer to sell or a solicitation of an offer to buy, nor shall there be any sale of these securities in any state or jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state or jurisdiction.*

## **Forward-Looking Statements**

This press release contains statements that constitute “forward-looking statements,” including with respect to the IPO and search for an initial business combination. No assurance can be given that the offering discussed above will be completed on the terms described, or at all, or that the net proceeds of the offering will be used as indicated. Forward-looking statements are subject to numerous conditions, many of which are beyond the control of the Company, including those set forth in the Risk Factors section of the Company's registration statement and preliminary prospectus for the IPO filed with the SEC. Copies are available on the SEC's website, [www.sec.gov](http://www.sec.gov). The Company undertakes no obligation to update these statements for revisions or changes after the date of this release, except as required by law.
